

Patents

Nine Energy’s products and processes are protected by patents in the United States and other jurisdictions as described below. This notice is provided to satisfy the virtual patent marking provisions under 35 U.S.C. § 287(a) and the America Invents Act (“AIA”) as well as the notice provisions of other jurisdictions. It associates certain Nine Energy products and methods with certain patents and published patent applications for patent marking purposes.

In publishing this list, Nine Energy does not threaten anyone or waive any right. The list is for notice and informational purposes only. The list may change from time to time and may not be up to date when you check it. The list does not include all Nine Energy products, patents and patent applications. Other products and services which are not listed here may be now or in the future protected by one or more Nine Energy patents and pending patent applications in the United States or elsewhere. Nine Energy may have other patents, patent applications, trade secrets, know-how, or other rights that protect its products, technologies and services which are not reflected here, or are not listed completely and accurately here. The listed patents and pending patent applications may have claims which read on products and methods in addition to their listed associated products and methods.
