

CLOSE TO PERFECTION. FAR FROM ORDINARY.
DRIVEN TO SUCCEED.

A DIFFERENT KIND OF ENERGY COMPANY

Nine Energy Service isn't your typical oilfield services company. Our success stems from a culture driven by performance and flawless well site execution. We have the world-class resources to perform both conventional and unconventional completions, cementing and wireline services while partnering with our customers to develop smarter, customized answers that drive efficiencies.

COUNT ON NINE FOR COMPLETIONS SOLUTIONS

Oil and gas clients throughout North America find Nine offers a geographical footprint in the basins that count and the full range of completions services.

Nine brings years of experience into play with a new breed of company dedicated to helping our clients reach their goals in the most efficient and cost effective way.

OUR SERVICES

Completion Solutions • Cementing Services

Completion Tools • Wireline Services • Coiled Tubing Services

THE WAY COMPLETIONS SHOULD BE

MAXIMIZING PRODUCTION THROUGH BETTER COMPLETIONS

A successful completion requires both forward-leaning technology and flawless wellsite execution. Nine provides both. Nine focuses on providing our customers with modern and efficient completion techniques coupled with the highest service quality with fast and nimble responses.

SOLID EXPERIENCE IN CEMENTING SOLUTIONS

Nine delivers operational experience in downhole cementing, acidizing and pumpdown services critical to each well's ultimate success. Our strong background coupled with the latest in high performance equipment means we're ready to meet the needs of even the most technologically challenging wells. We deliver safe, efficient and quality service in a range of service lines.

NINE TAKES A DIFFERENT APPROACH TO COMPLETION TOOLS – YOURS

Nothing is predictable in the oilfield. Maximizing production and minimizing costs is a balancing act. In challenging, unconventional environments, it's important that you have a partner who understands how to get the job done efficiently and effectively.

At Nine Energy Service, we don't offer off-the-shelf solutions. We customize completion solutions for every project—and provide the tools and the knowledge to deliver the lowest costs and highest efficiencies. With Nine, you have access to a full array of completion solutions, all designed, tested and proven in most of the major plays throughout North America.
